Summary

The TESOL certification course will provide the most essential knowledge and skills necessary to teach the English language to speakers of other languages. This course will educate teachers to address the major issues in the language teaching field, such as the language acquisition process, learning differentiation, and how different teaching methodologies address different learning styles, goals, and needs of the individual learners. This course will train teachers to engage student learning via interactive activities and technology. You will develop strategies to stimulate emotional intelligence and learning motivation. We introduce research driven tools to assess, evaluate, and measure standards of language proficiency, school curricula, textbooks, and course syllabi. Importantly, the course details methods to improve international communicative competence.
